OFFER BOWLING

EDGE STRING

“

EDGE String machines
have been a huge win for
our guests, our employees,
and our business.”

Graham Blackwell
Chief Commercial Officer
Tenpin, UK

Say Hello to **EDGE String**

The #1 Selling String Machine in the World

Say hello to a new era of bowling – one where you no longer struggle to find qualified technicians, your pinspotters don't break down, and lanes stay open. An era where your center saves thousands of dollars per lane every year and you sleep well at night knowing the good times will keep on rolling.

EDGE String

The Amazingly Simple Way to Offer Bowling

- **Amazing Bowler Experience**
- **Simple & Carefree Operation**
- **Exceptional Performance & Quality**

A close-up photograph of a person's hand holding a dark, marbled bowling ball. The person is wearing blue denim jeans and a dark wristband. The background is a blurred bowling alley with lanes and pins. The text is overlaid on the right side of the image.

**USBC-Approved,
with pinfall behavior
and scoring on par
with free-fall**

Amazing Bowler Experience

The bowling experience on EDGE String is second to none. Pins are always “on spot”, pin action is lively, strings are hidden, and its USBC-Approved design delivers pinfall behavior and scoring on par with free-fall.

Industry Certified*

EDGE String is USBC and IBF certified, making it the ideal choice for all levels of competitive play.

Full Coverage Pin Shield

Completely hides the pins and strings from view when the machine cycles.

Dark Pit Area

Hides the strings and highlights the pins during play.

CenterPunch Player Responsive Deck Lights

Integrates with Conqueror and BES X to respond to on-lane events, delivering an incredibly visual and engaging bowler experience!

* Two versions of EDGE String are offered. USBC certification is available only with the USBC-Approved version of EDGE String.

A woman with curly brown hair, wearing a light blue polo shirt, stands in a dimly lit room next to a large, black industrial machine. The machine has the words "EDGE STRING" printed on its side. She is looking towards the camera with a slight smile. The machine's front panel is partially open, revealing internal components. The background is dark with some blurred lights and equipment.

“

The EDGE String machine has exceeded, in all areas, my expectations. I call it the ‘low-stress machine’.”

Mark Bowen, Owner
Dover Bowl, NH

Carefree Operation

EDGE String's simple, robust design means any member of your staff can be easily taught to operate it and it requires very little servicing.

Simple to Learn, Easy to Use

Staff are typically comfortable with basic operation and maintenance within a few hours.

Low Maintenance

Robust design and only three adjustments—with gauges built in so you know they are done right. Plug & Play Design makes replacing components quick and easy.

One-Touch Controls

The intuitive, graphic machine controller – everything you need, at the touch of a button.

Safety in its DNA

Get the best safety features of any string machine and peace of mind for you and your employees. 100% Rear-operation, integrated guarding, and tool kit are included.

STRING

“

The Tech Wizard smartphone app is brilliant! Center teams now focus fully on our customers instead of dealing with pinspotting machine issues, and the bowling experience for our customers has never been better.”

Carl Boylan
Group Technical Manager
Hollywood Bowl, UK

Carefree Operation

Your staff never has to think about EDGE String because Tech Wizard will notify & provide guidance when attention is needed.*

Real-Time Operational Alerts

Informs if there is ever a stop in play, what the issue is, and what to do, all while keeping your bowlers updated on the scoring monitors.

Maintenance Notification & Guidance

Notifies when it's time for service, what is required, the tools and time needed and shows how to do it through instructional videos.

Staff Training Resource

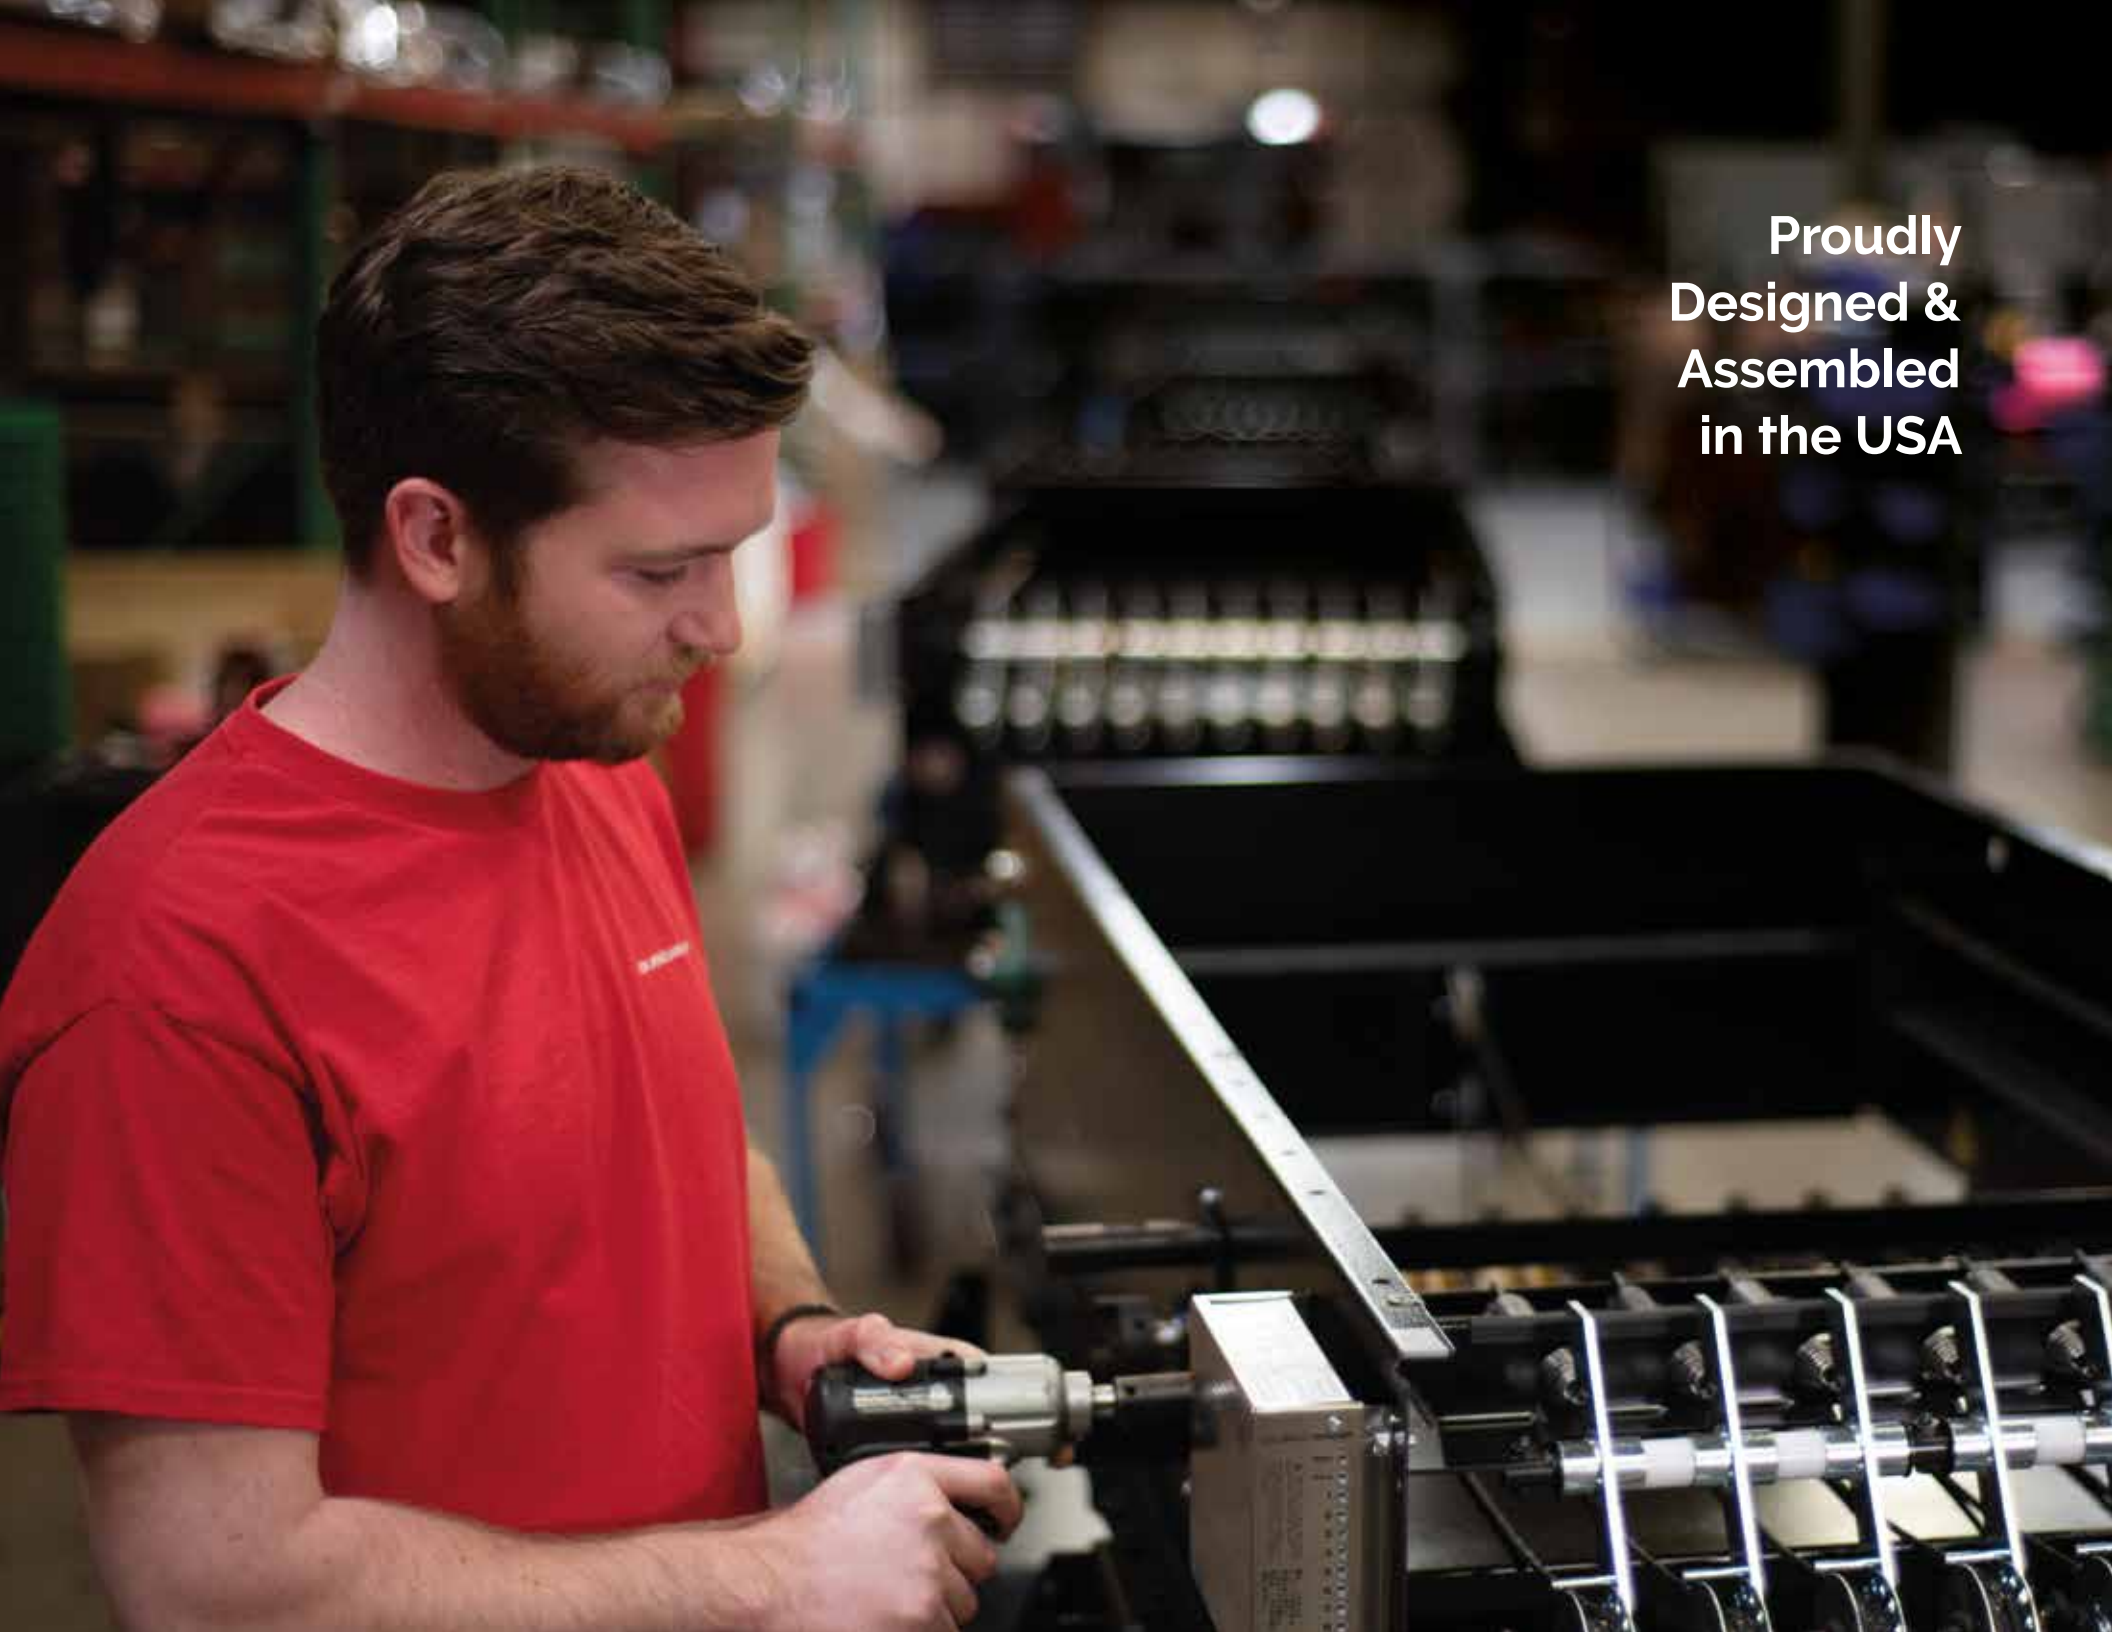

Instructional video content in Tech Wizard is a great reference and learning tool for your staff.

Cloud-Based Management Tools

Performance data, service history, and reporting capabilities are at your fingertips from anywhere.

* Tech Wizard functionality requires Conqueror X, any tier, with Conqueror Maximization Program (CMP).

Designed &
Assembled
in the USA**

Best Performance & Quality

EDGE String combines revolutionary electromechanical design and intelligent software, enabling you to deliver the fun of bowling with peace of mind and at a very low operating cost.

Extreme Low Energy Consumption

State-of-the-art, 24v DC electronics and drive technology means each machine consumes less power than the typical household coffee maker. With the same amount of energy, you can brew 1 pot of coffee or run EDGE String for 3 hours.

Proven Design, Quality Construction

Robust design, built in the USA with high-quality components. EDGE String will do battle with bowlers in high-lineage centers for decades—and win!

Performance Pin Bushing

Reduces the occurrence of pin tangles so bowlers keep rolling.

Dual-Action Pin De-Tangler

If pins tangle, EDGE String's intelligent software targets tangled pins and varies pulling speed and force, resolving over 99.99% of frames bowled. This means fewer tangles requiring staff intervention.

Adaptive String Length Technology

Adaptive String Length Technology* *Patent Pending*

Automatically shift between casual play and USBC-Approved play

EDGE String is the only USBC-Approved string machine that automatically adjusts string length based on the type of bowling play – ensuring your bowlers, and your center operations, enjoy optimal frames-per-stop performance across all types of bowling play.

- Host USBC league and tournament play at the USBC-Approved string length, with amazing performance reliability.
- Automatically shorten the strings and enjoy even better performance reliability during casual and non-USBC competitive play.
- Exclusively controlled and automated through the Conqueror X management system.
- Peace of mind - Staff can quickly check the gameplay mode the EDGE String machines are in if asked.
- Tracking - Games bowled in USBC-Approved mode are tagged and available through Conqueror reporting.

* Feature is available with the USBC-Approved version of EDGE String only.
