CENTERPUNCH
DECK LIGHT

INTELLIGENT ILLUMINATION FOR A MORE IMPACTFUL BOWLING EXPERIENCE

Why We Created CenterPunch

It Is All About Control...

One of the biggest challenges with effects lighting used in bowling today is control. Many systems offer a very limited set of effects and no easy way to integrate different lighting elements to produce coordinated shows across the center. Consequently, these products deliver a little “flash” with little other value.

Today’s bowlers want to do more. They want to be thrilled.

Bringing decades of industry experience and an unparalleled reputation for innovation, QubicaAMF is on a never-ending mission to Make Bowling Amazing.

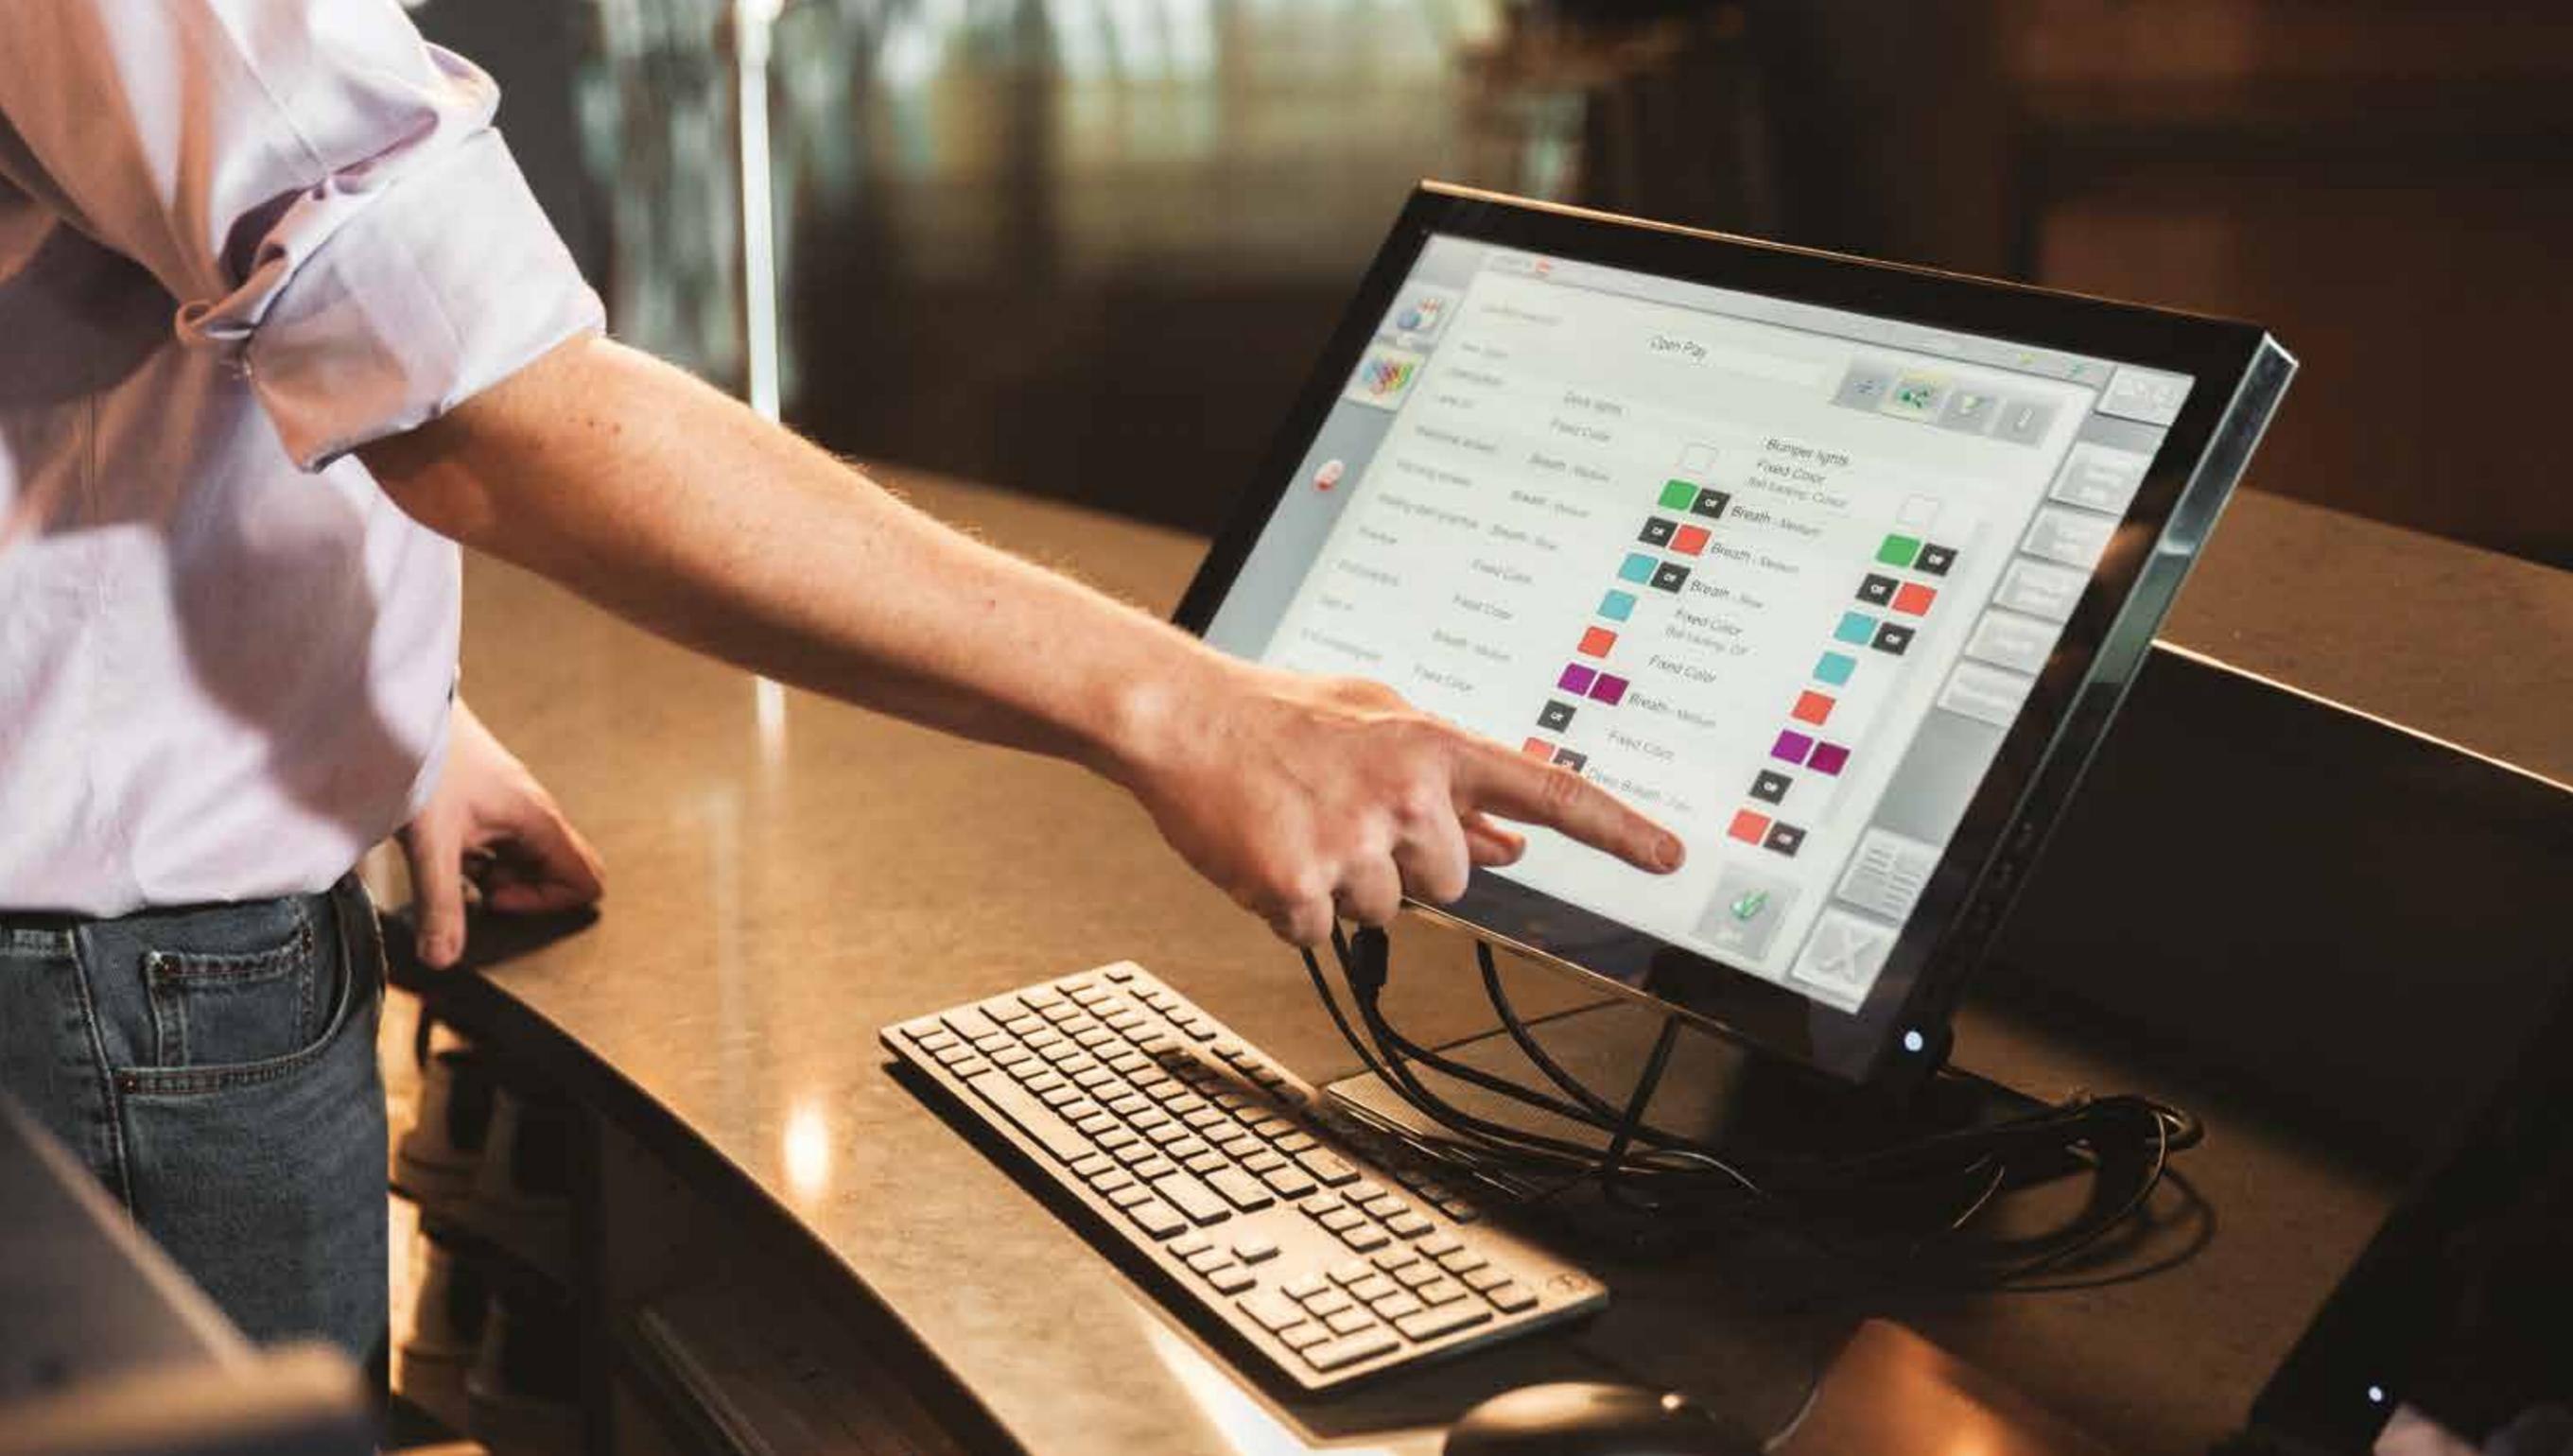

Introducing CenterPunch Intelligent Lighting

Intelligent illumination for a more impactful bowling experience

Only the CenterPunch family of effects lighting is controlled through the Conqueror Pro bowling management system making it easy for you or your staff to create powerful, coordinated lighting shows using both pin deck lighting and capping lighting. This smart control gives you the power to easily unleash coordinated light effects that create an unforgettable guest experience in your center.

The CenterPunch family will make your center more amazing by delivering:

- Intelligent Control
- A more impactful bowling experience
- Illumination purpose-built for bowling

Intelligent Control

Using the CenterPunch Deck Lights and Capping Lights is convenient and versatile thanks to Conqueror Pro. It has never been easier for bowling centers to create and run unique and impressive lighting shows combining pin deck and capping lighting.

Only with CenterPunch can you get...

EXCLUSIVE Control Integration – Control the Deck Lights and Capping Lights together to set the mood in your center. Create anything from a relaxing space to a high energy party environment.

EXCLUSIVE Light Show Design Tool – This “Point & Click” tool makes it easy to build lighting effect shows in a matter of minutes!

EXCLUSIVE Light Show Library – Store and recall lighting shows for quick and easy access. Great for recurring events and returning groups.

EXCLUSIVE Light Show Scheduling – Schedule when you want different light shows to run, ensuring the day-in/day-out look and feel in your center without having to think about it.

CenterPunch Deck Light

A More Impactful Bowling Experience

The CenterPunch Deck Light enhances guest experience and bowler engagement like no other pin deck light.

EXCLUSIVE Virtual Concierge – With Conqueror Pro, use deck lighting colors to guide guests through the bowling experience by making it easy for bowlers to find their lanes, guide leagues through practice and play, and more.

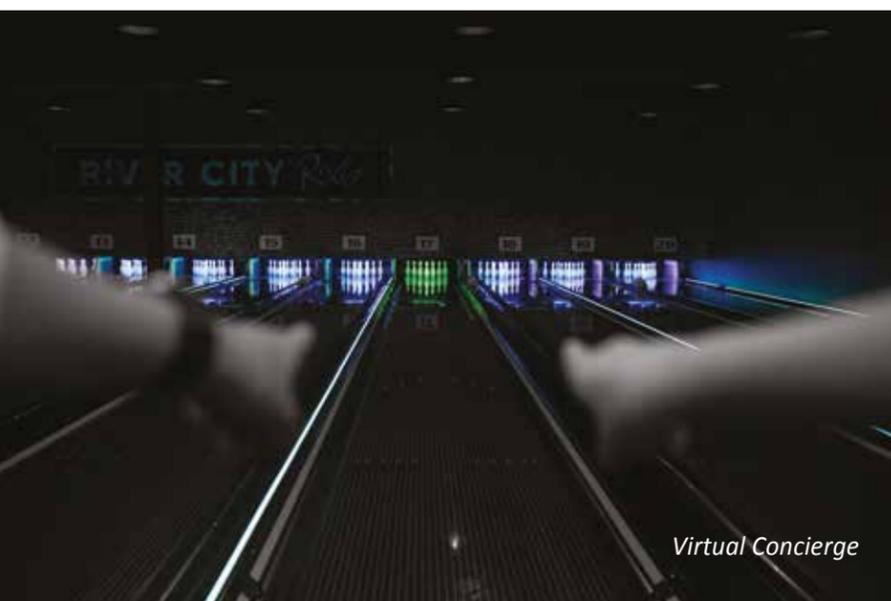

EXCLUSIVE Bowler Driven Lighting Effects – When combined with the BES X Bowler Entertainment System, the deck lights respond to strikes, spares, gutter balls and more, driving more excitement and engagement amongst your bowlers – everyone will be cheering!

Illumination Built for Bowling

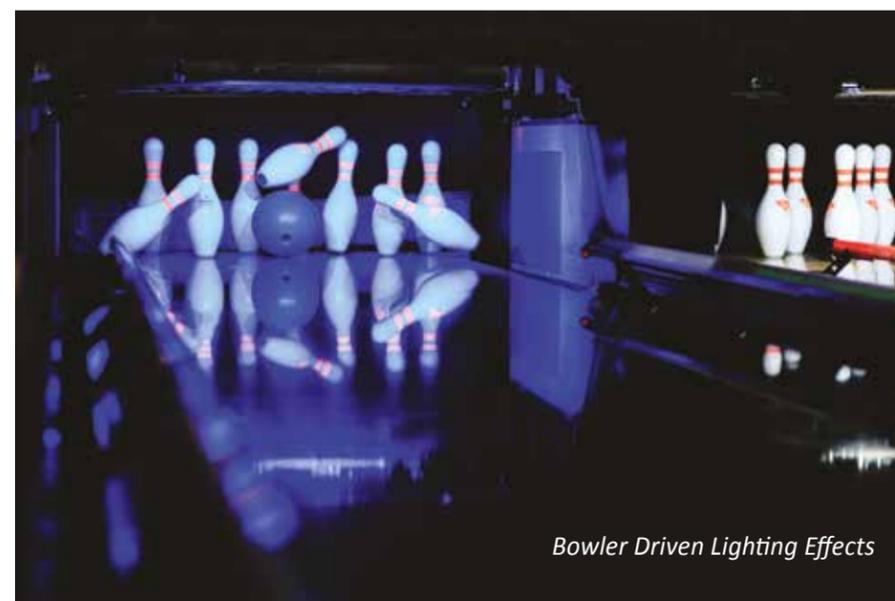

CenterPunch Deck Lighting is purposefully built, incorporating unique features to deliver the best possible pin illumination.

EXCLUSIVE High Power RGBW LED Arrays – Three high power LED arrays, specially designed and located, ensure optimal pin illumination.

White Light LEDs – Real white light LEDs illuminate pins, delivering a warmer, more authentic white light than the RGB white light many alternatives provide.

CenterPunch Capping Light

A More Impactful Experience

The CenterPunch Capping Light is the most visually impactful capping light system you can get for your center.

EXCLUSIVE Laser Beam of Color – Over 500 full color LEDs per run of lights illuminate a custom design light diffuser, producing a vivid beam of color that is sure to impress guests.

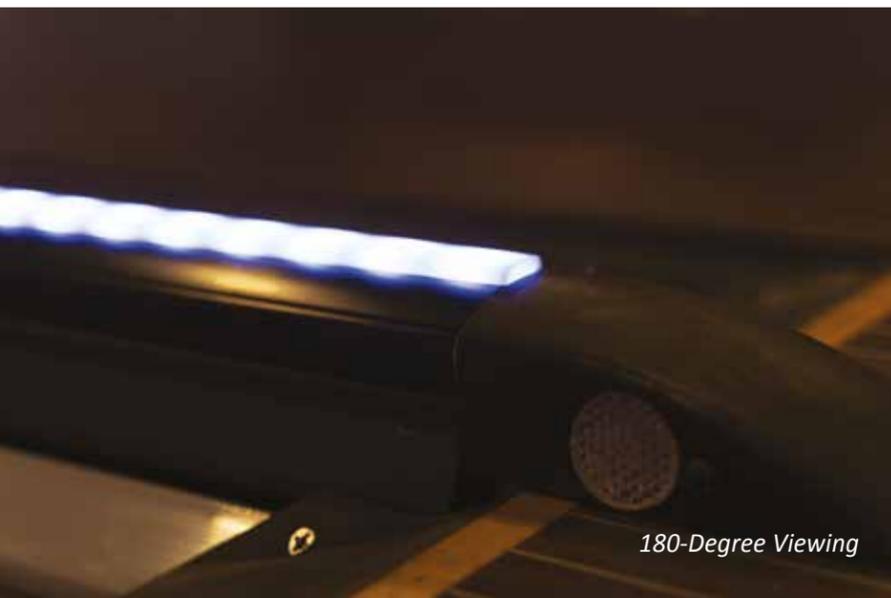

EXCLUSIVE 180-Degree Viewing – The light diffuser extends above the capping surface and illuminates, making it visible across all lanes. The WOW factor created extends across the center.

Illumination Built for Bowling

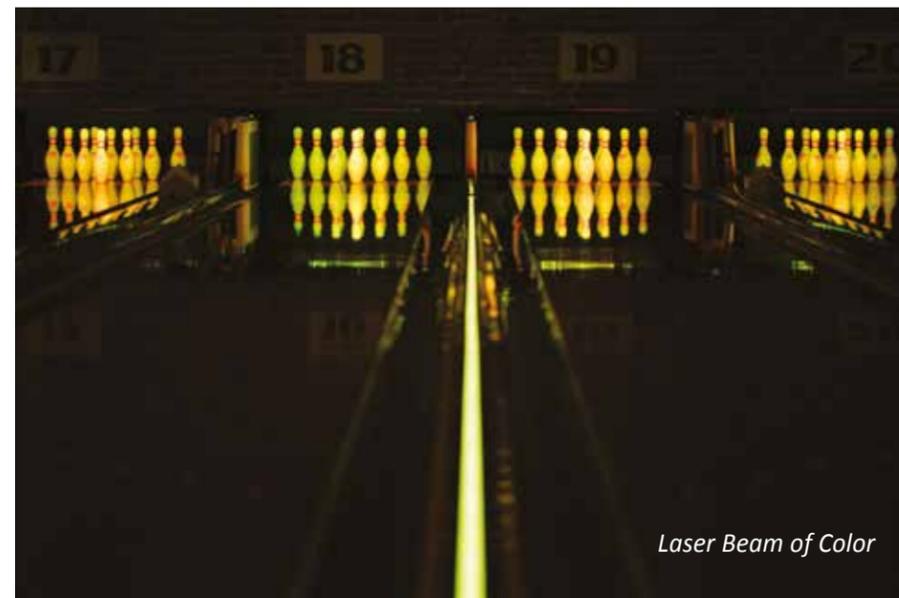

CenterPunch Capping Lighting is purposefully built, incorporating unique features to give you the best possible capping illumination.

Consistent Light Intensity – Special design ensures the brightness of the lights remains the same from beginning to end of the lane, for the best possible visual impact.

Plug & Play Components – Allows for different length installations and makes maintenance super easy.

Bring It All Together with Hyper Global Moods

Add HyperBowling to the mix with CenterPunch Capping and Deck Lights and amplify the excitement even further! These three lighting elements work beautifully together and easy integration with Conqueror Pro makes it happen.

Use Conqueror Pro to build light shows combining these three elements to create amazing, coordinated effects across your center perfect for any mood, event or environment you can think of—the possibilities are endless!

Hyper Global Moods will truly WOW your guests and make the experience in your center unforgettable, something folks will want to come back for time and time again.
