## ANSWER THESE QUESTIONS PRIOR TO SELECTING ANY LANE CONDITIONER

Selecting a lane conditioner begins with understanding your center. The following series of questions were designed to help us understand your center. We ask these questions for every potential QubicaAMF customer. Without asking these questions, you could be paying for technology you don't need or selecting a product that won't work well with your lane machine, lanes, bowlers or the volume of your business.

### 1. What type of lane machine do you use?

- Pad machines such as Century 100, Ultralite, and Kegel: Use low viscosity Visflo 12.7 or 19.5
- Silver Bullet, Magnum, or Summit: Visflo 12.7 – 39 or any of the Reactors
- Lane machines equipped with tank heaters: Use high viscosity Visflo 48.5 or Utopia
- All our products may be used in Brunswick or Kegel wickless machines

### 2. What type of bowlers do you have?

- Recreation bowlers: Visflo
- Combination of recreation, league and a few tournaments: Reactor LL, ML, or HL
- Classic leagues and frequent tournaments or high lineage: Utopia

### 3. What type of lane surface do you have?

- Harder surface, like synthetic: less lubricity Reactor LL or Visflo
- Most surfaces: medium lubricity Reactor ML or Visflo
- Softer surface, like older wood or Guardian: higher lubricity Reactor HL or Utopia

### 4. What is the condition of your lane surface?

If it has been more than two years since your last resurfacing, or your non-QubicaAMF synthetic lanes are in need of polishing, then you need a higher viscosity, higher lubricity conditioner like Reactor HL or Utopia.

### 5. How much lineage do you have?

More bowling requires more oil. Today's conditions use a high volume of lane conditioner to protect the lane surface, requiring higher lubricities to reduce the drag on the bowling ball as it passes through the oil. High lineage centers require a high viscosity, high lubricity oil such as Reactor HL or Utopia.

## QubicaAMF versus the Competition

### QubicaAMF product requires **NO SHAKING.**

1. Easy to use
2. Does not clog pump filters or wicks
3. More consistency
4. Longer shelf life

And you don't have to shake the machine **AFTER EVERY USE.**

## UTOPIA

Utopia is designed for ultra performance, durability, and protection against particle enhanced balls under extreme conditions (e.g. high lineage, tournament play, and poor lane surfaces). It's easy to use. Utopia may be applied through wickless machines or wick/pad machines equipped with tank heating systems. Utopia is an ultra high viscosity, high lubricity, lane lubricant modified with synthetic additives. It provides the outstanding protection of an ultra high viscosity conditioner, while eliminating the negative side affects of "drag" on the bowling ball as is experienced in typical high viscosity lane conditioners. Utopia is homogenous, and DOES NOT REQUIRE SHAKING.

**Utopia**                    **294006095i**   **2 x 2.5 gallons**

## REACTOR®

Easy to use. Very forgiving. Instant results. Each formula of Reactor is designed to achieve optimal ball reaction in the mid-lane for predictable, consistent scoring on any surface with any lane machine. Depending on the lane surface at your center, you'll want to choose one of these:

**Reactor LL** (Low Lubricity) synthetic lanes, and harder lane finishes.

**Reactor ML** (Medium Lubricity) most lane surfaces.

**Reactor HL** (High Lubricity) softer wood finishes, severely worn lanes, and polymer film covered lanes. Reactor is a medium to high viscosity poly-viscous lane conditioner modified with synthetic additives. Reactor is homogenous, and DOES NOT REQUIRE SHAKING

**Reactor LL**            **294006065i**   **2 x 2.5 gallons**  
**Reactor ML**            **294006049i**   **2 x 2.5 gallons**  
**Reactor HL**            **294006075i**   **2 x 2.5 gallons**

## VISFLO

Ideal for recreational centers, with a large base of open play bowlers or recreational leagues, and centers that are cost conscious. Visflo is available in 5 different viscosities. The ideal viscosity for your center is determined by your lanes, lane machine, and lineage. Visflo is 100% solids, and made of pharmaceutical grade mineral oil. Visflo is homogenous, and DOES NOT REQUIRE SHAKING.

**Visflo 12.7**            **294006040**   **2 x 2.5 gallons**  
**Visflo 19.5**            **294006004**   **2 x 2.5 gallons**  
**Visflo 32.5**            **294006009**   **2 x 2.5 gallons**  
**Visflo 39.0**            **294006042**   **2 x 2.5 gallons**  
**Visflo 48.5**            **294006032**   **2 x 2.5 gallons**

## CONDITIONER SUPPLIES

### LANE CONDITIONER CONTAINER

Take advantage of the savings this container will bring by accurately mixing your lane cleaners with water. Provides for neat, clean storage and dispensing.

5 gallon mixing container (complete)

**Product Code**    **294080111**

Spigot for Mixing Container

**Product Code**    **294007079**

Lid for Mixing Container

**Product Code**    **294007076**

Tank with fitting only

**Product Code**    **294007086**

CONDITIONER	VISCOSITY	SURFACE TENSION	WICK MACHINES	WICKLESS MACHINES
Reactor	Variable	34	Yes	Yes
Utopia*	81	Yes*/No	Yes	Yes
Visflo 12.7	12.7	31.8	Yes	Yes
Visflo 19.5	19.5	32.6	Yes	Yes
Visflo 32.5	32.5	33.8	Yes	Yes
Visflo 48.5	48.5	34.6	No	Yes

\*Highest viscosity allowable by United States Bowling Congress. Can be used in wick/pad machines equipped with oil tank heating systems.

# LANE CLEANING

## FORMULA ACC®

Formula ACC is an All Conditioner Cleaner specifically formulated to remove today's hi-tech lane conditioners from the lane surface. Formula ACC's dual action cleansing attacks a wide variety of oils and synthetic components found in today's conditioners. Formula ACC is only recommended for vacuum stripping and may be diluted as high as 10:1 depending upon each center's specific needs.

**Product Code** 295006047i 2 x 2.5 gallons

## FORMULA 388®

Specially formulated non-butyl cleaner designed for vacuum stripping or hand cleaning lanes. Designed for an initial mix ratio of 1 part Formula 388 to 5 parts water.

**Product Code** 294006021 2 x 2.5 gallons

## CARPET ANTIFOAM

Anti-foaming additive used to reduce foaming in lane machine waste tanks. DO NOT use in cleaner tank.

**Product Code** 294115161 1 gallon

## CLEANER SUPPLIES

### LANE CLEANER MIXING CONTAINER

Save time, effort, and money by accurate measuring and mixing your lane cleaner to the correct dilution ratio. Provides for neat, clean storage and dispensing. Holds, 10 gallons.

10 gallon mixing container (complete)

**Product Code** 294080107

Tank, Spigot, and Lid

**Product Code** 294080107

Spigot for Mixing Container

**Product Code** 294007079

Lid for Mixing Container

**Product Code** 294004496

10 gal. Tank with fitting only

**Product Code** 294004497

## VISCLEAN CONCENTRATE

Specially formulated cleaner concentrate designed for use when vacuum stripping lanes. Works with all vacuum lane strippers. Initial mix ratio of 1 part VisClean to 10 parts water. You won't find a stronger cleaner and you'll save on freight.

**Product Code** 294006033 Box of 6 quarts A & 6 quarts B

CLEANER	VACUUM STRIPPING	HAND STRIPPING
Formula ACC	Yes	No
VisClean Concentrate	Yes	No
Formula 388®	Yes	Yes

# LANE CLEANING - DUSTER & CLEANING CLOTH

## MAGIC TRIANGLE DUSTER AND CLEANING CLOTH

### Cleaning Cloth for KEGEL

43" wide cloth, plastic core and drive end, 17 yards per roll, 4 rolls per carton. **Fits DBA and Kegel made machines.**

**Product Code 294008460**

40 1/2" wide cloth, wooden core and nail drive, 33 1/3 yards per roll, 3 rolls per carton. Fits all maple dusters.

**Product Code 294008400**

43" wide cloth, wooden core and drive end, 33 1/3 yards per roll, 3 rolls per carton. Fits DBA Lane Runner, DBA Aluminum Dusters and DBA Lane Maid.

**Product Code 294008430**

40 1/2" wide cloth, wooden core and metal drive end, 33 1/3 yards per roll, 3 rolls per carton. Fits K&B Lane Dusters and Perry Austen Magic Lane Duster.

**Product Code 294008410**

43" wide cloth, plastic core and drive end, 33 1/3 yards per roll, 3 rolls per carton. Fits 44" AMF and older Brunswick lane dusters. \*\*

**Product Code 294844142**

42" wide cloth, wooden core and drive end, 33 1/3 yards per roll, 3 rolls per carton. Fits AMF Unimatic machines, AMF 42" Lane Duster and AMF Super Duster.

**Product Code 294008423**

43" wide cloth, plastic core and drive end, 25 yards per roll, 4 rolls per carton. Fits: Hot Dusters®, ALL QubicaAMF Century, Perry Austen Champion, Pierce & Stevens Lane Pro Duster, new Brunswick Lane Duster, DBA Lanewalker and Excel. \*\*

**Product Code 294008443**

\*\*Each roll comes on a reusable plastic core with double face tape for easy trouble-free take-up. Use this plastic core as your take-up roller, and throw the whole dirty roll away! No more unraveling or cutting off old, dirty, oily cloth.

CLOTH PART #	Brunswick #	DBA #	WIDTH	CORE/DOWEL

# LANE DUSTERS / APPROACH CARE

## HOT DUSTER

**Product Code** 600130

The Qubica AMF Magic Triangle Duster Cloth is an unbeatable lane duster. Using the Duster Cloth is a time-tested method of keeping your lanes dust free and your bowlers clean and happy.

## ROTARY FLOOR MACHINE

Ideal for synthetic approach cleaning, buffing, and maintenance. Use with Buffing Pad #294007090

**Product Code** 041007400 115 volt, 50/60 hz.  
041740096 230 volt, 50/60 hz.

## BASSINE BRUSH

Soft bristle brush for lane and general bowling center maintenance.

**Product Code** 294007061

## ROTARY PAD AND SANDSCREEN DRIVE HEAD

Driver assembly for rotary pads and sand paper.

**Product Code** 081001087

## ROTARY SANDING SUPPLIES

3M™ Brand Black Thick Line Stripper Pads.

**Product Code** 294007006-1 18" diameter  
294007006-2 19" diameter

3M™ Brand Natural Blend Tan Floor Pads.

**Product Code** 294007007-1 18" diameter

## BUFFING PAD

Loop cloth pad ideal for use with rotary floor machine to clean and buff synthetic approaches. Pad provides better performance than other types of material and is extremely durable. Machine washable.

**Product Code** 294007090

## Approach Dusting

### 3M™ Doodleduster™ Dusting Tool

Convenient and efficient to use, the Doodleduster uses disposable cloth for dusting approaches. Replacement cloth has 250 sheets per roll. Does not include handle. Recommend using QubicaAMF's Multi-Use Telescoping Handle, Product Code 294007091.

**Product Code**    **294007040**  
                           **294007042**    **Replacement Cloth**

### 36" Approach Mop

Simple design with machine washable mop head

**Product Code**    **294007059**    **Mop**  
                           **294007060**    **Refill**

## GENERAL SUPPLIES

### LANE & GUTTER MOP

Cleans and dusts lane and gutters at the same time. Removable, washable mop head.

**Product Code**    **041003711**    **refill**

### GUTTER MOP

Cleans and dusts gutters. Comes with one removable, washable mop head. 60" handle.

**Product Code**    **041003921**    **mop**  
                           **041003911**    **refill**

### MULTI-USE TELESCOPING HANDLE

Heavy duty adjustable-length aluminum handle. Fits Doodleduster, brooms, mops and other general maintenance items.

**Product Code**    **294007091**

## APPROACH MAINTENANCE

### SURE SLIDE

Spray on and buff approach conditioner specially formulated to improve bowler slide on synthetic approaches. Recommend using Buffing Pad, 294007090 with Rotary Floor Machine for easy application. Not for use on wood approaches.

**Product Code**    **294007038**    **2.5 gallon**

### 3M™ TROUBLE SHOOTER

Aerosol approach cleaner ideal for spot cleaning synthetic approaches.

**Product Code**    **049006638**    **21 oz.**

### APPROACH SPOT CLEANER

Solvent style liquid approach spot cleaner for all approach types.

**Product Code**    **294007037**    **1 gallon**

## LANE MONITOR™

<b>Product Code</b>	<b>61860225000</b>	<b>Computer Lane Monitor™ 110V</b>
<b>Product Code</b>	<b>61860225220</b>	<b>Computer Lane Monitor™ 220V</b>
<b>Product Code</b>	<b>61860155000</b>	<b>Recorder</b>
<b>Product Code</b>	<b>61860162000</b>	<b>Calibration Kit</b>
<b>Product Code</b>	<b>61100261000</b>	<b>Tape Advance Roller</b>
<b>Product Code</b>	<b>61100060000</b>	<b>Light Bulb</b>

Monitor™ and Computer Lane Monitor™ are trademarks of the Brunswick Bowling & Billiard Company and are not affiliated with QubicaAMF.

## PIN FORK

**Product Code**      **B158100**

## TAPE RECORDER SUPPLIES

### 3M™ LANE TAPE

Official tape used with tape pick-up units to monitor lane conditions and lane patterns. 1" wide x 36 yds long.

**Product Code**      **294004057**      **roll**

### SELF-ADHESIVE LANE TAPE EDGE MARKER TAB

Self-adhesive pads of white lane edge markers preprinted with date, lane number, lane distance and lane machine program number lines. No more cutting white tape to size. Specially made to be released from the lane and captured by the 3M lane tape. 50 sheets per pad. 10 pads.

**Product Code**      **294110947**

### ALUMINUM TAPE PUSH ROD

Replaces wood push rod supplied with the lane monitor tape pick-up unit. During use, the wood rod may break, particularly when using heavy pressure to read high units of oil. Sturdy, durable rod is designed to provide years of use.

**Product Code**      **294110946**

## PETRO FREE

PetroFree is a product of the latest solvent technology. It's non-petroleum based and contains no ozone depleting chemicals. When diluted, PetroFree may be used as a general purpose cleaner. Effective on heavy grease, oil, asphalt, adhesives and floor tile mastic. Safe on metals. Can be used in parts washers. Contains surfactant, not recommended for use on electric motors.

**Product Code**      **294006043**      **4 x 1 gallon**

## PINKEEPER® PIN CLEANER

Specially formulated to reduce sticking pins which results in fewer pile ups or pins sticking in deck chutes. Water based detergent pin cleaner designed for use in an automatic pin cleaning machine.

**Product Code**      **294006020**      **2 x 2.5 gallons**

## ORANGE CD

Heavy-duty chemical degreaser recommended for removing oils and grease from most surfaces. May be used straight or diluted for manual wipe on/wipe off parts cleaning applications. Safe on aluminum, galvanized metal, copper, steel and tin parts when a water-based solvent is acceptable. Also may be used to clean concrete floors and aluminum pinspotter/pinsetter parts.

**Product Code**      **294006046**      **4 x 1 gallon**

## FRESH CARE

Spray used to deodorize hard, non-porous surfaces, bowling equipment and rental shoes. Available in aerosol or liquid form.

**Product Code**      **294007058**      **16 oz. aerosol**  
**047000100**      **1 quart liquid with exact burst trigger sprayer**

## AP3 CLEANER

All purpose cleaner. Safe on all washable surfaces. Use diluted through trigger sprayer to clean counter tops, furniture, ball returns and scoring console. Also may be used for mop and bucket floor cleaning. Effective at removing nicotine and other common bowling center stains.

**Product Code**      **294006045**      **4 x 1 gallon**

# EZ TOUCH LANE MACHINE

## SUMMIT S-SERIES

### THE SMARTEST CHOICE FOR CENTERS OF 16 LANES OR LESS

Do you own or manage a smaller center and find yourself doing the lanes by hand? Perhaps you use outdated equipment that doesn't clean properly, or apply enough oil for today's bowling balls?

Now there's a better choice—EZ Touch from QubicaAMF.

#### Easiest to learn and operate

EZ Touch is super easy to learn and run. So you won't have to spend money on a dedicated lane maintenance technician or head mechanic.

A NEW touch interface makes the machine incredibly simple to operate—for any skill level.

Preprogramming eliminates the time and trouble of changing lane oil patterns. You just push a button.

A lightweight design. EZ Touch is the lightest machine on the market today. Anyone can maneuver and lift it.

#### Far less expensive to purchase and maintain

EZ Touch is a very economical solution with a low total cost of ownership. And it also saves labor costs by automating what you might be doing by hand or less efficiently now.

Low purchase price. The nearest competitor's machine costs 50% more.

No installation is required. So there are no upfront fees.

No cleaning cloth is required, saving you thousands of dollars over the years.

Fewer adjustments and fewer parts mean less maintenance.

#### All-in-one convenience

EZ Touch has everything you need to take care of your lanes—and all types of bowlers. It protects one of your biggest investments as well as machines costing three times as much.

Patterns for any bowler. EZ Touch lets you condition your lanes for recreational, league and tournament players. It also has a clean only program.

High output allows EZ Touch to apply over 100 units (30 ml) for maximum lane protection under the most demanding conditions.

Multiple run capabilities let this versatile machine lay down up to four coats of oil for superior control and lane protection.

High speed. It only takes a minute for EZ Touch to clean and oil a lane.

High scoring. EZ Touch is preprogrammed with the highest scoring USBC/WTBA legal programs available.

And the best part? EZ Touch is guaranteed by QubicaAMF, the market leader. So you know you'll be getting a machine that will last for years, and keep your lanes in the best possible shape.

**EZ Touch 110v: 294116110**

**EZ Touch 220v: 294116220**

## SUMMIT S-SERIES

### **FAST. RELIABLE. ECONOMICAL. CONSISTENT.**

Simple and easy, the SUMMIT S-Series is designed to be extremely reliable and efficient for the needs of any size center. The SUMMIT S-Series combination machine cleans, oils, and buffs in a single or double pass. Access to Cleaner is easy with the tank fill right on top. The new Summit S-Series with Variable Spray Cleaning lets you put cleaner where you need it when you need it. The clog resistant nozzles allow you to run longer with less maintenance. Also, on the new Summit S-series is a reusable agitation pad that cuts down on maintenance costs and allows for perfect cleaning each and every time.

**Summit S 110v: 294002400**

**Summit S 220v: 294002450**

Part #	Description
049009105	Patching Stock Maple 15/64" x 3/4" random lengths (bundle)
049009205	Patching Stock Pine 15/64" x 3/4" random lengths (bundle)
049005501	Approach Fill 70" Bundle
909172260	Maple Dowel 11/16"
909172000	Maple Dowel 1/2"
909084000	Pine Dowel 11/16"
045006503	Walnut Dowel 11/16"
045006502	Walnut Dowel 1/2"
045006501	Arrow Dart
049001001	1/2" Fiber Foul Line (1/2 x 1/2 x 42")
049001002	3/4" Fiber Foul Line (1/2 x 3/4 x 42")
049001500	1/2" Fiber Pin spot (for replacements)
049001501	3/4" Fiber Pin spot
910537280	3/16" Fiber Dowel (2/pin spot, 6/foul line)
049006625	DuraBowl Edgeboard 1"
049003116	Durabowl Edgeboard Strip only (replaces fiber strip)
049006624	Durabowl Tail Plank
814859642	#20 x 4" PHFH Wood Screw (wood lane to foundation)
814852562	#16 x 3-1/2 PHFH Wood Screw (maple approach to foundation)
716007003	8D Screw Nail 2-1/2" (1 lb)
716002003	8D Coated Sinkers (1lb)
716002004	12D Coated sinker (1lb)

### ROTARY SANDING SUPPLIES

All QubicaAMF 3M rotary sanding screens and disks are made with silicon carbide abrasive for strength and durability.

## WATER BASED APPROACH

### WATER BASED APPROACH APPLICATOR KIT

Simple and easy to use, this applicator is traditional in design but lighter in weight. Two piece handle allows for easy transport between job sites. Includes one refill.

<b>Product Code</b>	<b>294600300</b>	<b>Kit</b>
	<b>294007031</b>	<b>Single Refill</b>

## RESURFACING SUPPLIES

### RESURFACING & RECOATING SUPPLIES

Epoxy Injection. Injection of wood lanes is a proven method of extending the life of your lanes and increasing customer satisfaction. Requires 2 parts Compound A to 1 part Hardener B.

<b>Product Code</b>	<b>294007081</b>	<b>Compound A</b>
	<b>294007082</b>	<b>Hardener B</b>

Oil Lift. Oil absorbent compound.

<b>Product Code</b>	<b>294007078</b>	<b>50 lb. box</b>
---------------------	------------------	-------------------

Tack Cloth. 150 yd. roll. Cut to 43" x 9", unfolds to 43" x 36".

<b>Product Code</b>	<b>294007080</b>
---------------------	------------------

Epoxy Patch. Easy to use, makes lane repair simple.

<b>Product Code</b>	<b>294007075</b>	<b>(75 ml)</b>
	<b>294007105</b>	<b>(300 ml)</b>

Epoxy Patch Trigger Dispenser. Supplied with 1:1 mixing plunger.

<b>Product Code</b>	<b>294007062</b>	<b>(75 ml)</b>
	<b>294007106</b>	<b>(300 ml)</b>

Plunger. For use with QubicaAMF Epoxy Patch. Replaces 50 ml plungers from older non-trigger dispensers.

<b>Product Code</b>	<b>294007099</b>	<b>(75 ml)</b>
---------------------	------------------	----------------

Epoxy Patch Mixing Nozzle.

## PREBASE STAIN

Recommended for use with all 100% solids base coats, MU Coats, EasyBase or other similar base coats. With a low cost per lane, PreBase Stain is an easy to apply, fast-drying, solvent-based urethane that penetrates the lane and prepares the lane for the base coat application. PreBase Stain strengthens wood structure, providing a superior foundation for the base coat. A slight pigmentation brightens lanes discolored by oil penetration. 5 gallon metal container. Coats 18-20 lanes.

**Product Code** 294007049N  
**Use Applicator**  
**Use PreBase Stain Applicator**  
**(see Applicator Refills)**

## 100% SOLIDS BASE

The bowling surface of our 100% Solids Top Coat sets it apart from other 100% solids top coats. It's more durable, and its surface gives more conditioner control. Non-flammable, VOC compliant, two component, no solvent odors. Can be used for resurfacing over QubicaAMF 100% Solids Base Coat, MU coats, EasyBase or other compatible base coats, or to recoat itself or other 100% solids top coats and compatible urethane finishes. Kit includes 1 can each Resin and Activator. Each kit coats 1 lane. 8 kits per carton.

**Product Code** 294007043N

## EasyBASE

The benefits of a 100% solids base coat with simple application. EasyBase is a VOC compliant, two component, durable base coat. It may be used during resurfacing over PreBase Stain or other compatible stain products. Kit includes 1 can each Resin and Activator. Each kit will coat 5-6 lanes. 1 kit per carton.

**Product Code 294007051N**

Use Applicator

**Use Regular Nap - Foam Back OR Easy Foam applicator (see Applicator Refills)**

## EasyTop

100% solids top coat with a simple application. EasyTop is a VOC compliant, two component, durable top coat. It may be used during resurfacing over 100% Solids Base Coat, EasyBase or to recoat itself or other 100% solids top coats and compatible urethane finishes. Kit includes 1 each Resin and Activator. Each kit coats 5-6 lanes. 1 kit per carton. Part number to 294007055

**Product Code 294007055N**

Use Applicator

**Use Regular Nap - Foam Back OR Easy Foam Applicator (see Applicator Refills)**

## QDT URETHANE UV

This moisture cure urethane top coat finish is truly simple to apply. Flows well, levels quickly and dries fast. Not VOC compliant. Excellent for recoats to control finish build-up after multiple recoats. Can be recoated over itself, QubicaAMF HS Urethane top coat or other compatible urethane top coats. 5 gallon metal container. Coats 8-9 lanes.

**Product Code 294007057N UV**

Use Applicator

**Use Regular Nap Applicator (see Applicator Refills)**

## WATER BASED TOP UV

Durability and bowlability in a water based top coat.

Ideal for newer wood lanes, not yet injected. VOC compliant and non-flammable. Can be used as a recoat finish over itself or other compatible water based top coat finishes. 5 gallon polyethylene container. Coats 9-10 lanes.

### Product Code

**294007074N** UV Water based topcoat 5 gal.  
**294007044-1** Water Based Catalyst

Use Applicator

Use Regular Nap - Foam Back Applicator (see Applicator Refills)

## WATER BASED BASE

QubicaAMF Water Based Base Coat is a high solids, flexible base coat finish that is durable, works to control oil penetration and minimizes feathering. It's ideal for newer wood lanes. VOC compliant, nonflammable with low odor. 5 gallon polyethylene container. Recommended two coats. Coats 5-6 lanes with two coats.

### Product Code

**294007044N**  
**294007044-1** Water Based Catalyst

Use Applicator

Use Regular Nap - Foam Back Applicator (see Applicator Refills)

## WATER BASED APPROACH FINISH

Excellent durability and slide characteristics make Water Based and ideal approach finish. VOC compliant, non-flammable with low odor. One gallon coats 4 approaches.

**Product code: 294007151N 1 gallon**  
**294007050 4 x 1 gallon**

Use Applicator

**Product code: 294007031**

## WATER BASED RECOAT APPROACH FINISH

Water Based Recoat Approach Finish is very durable and is ideal for use when recoating approaches. Helps control slide characteristics. Not recommended for use during approach resurfacing. VOC compliant, non-flammable, low odor. One gallon coats 5 approaches.

### Product Code

**294007161N 1 gallon**  
**294007066 4 x 1 gallon**

Use Applicator

**Product Code 294007031**

# QUBICAAMF SMART BALLS

## SMART BALL SYSTEM WITH COMFORT FIT GRIP™

### The World's Most Comfortable House Ball System

Broken nails. Blisters. Hand fatigue. More than minor complaints, they're among the biggest reasons why bowlers stop playing. But you can put an end to this, and drive more revenue through quicker turnovers and increased comfort, with our Smart Ball™ System—a one-of-a-kind house ball system proven to improve bowler satisfaction.

Fast, simple selection and our exclusive Comfort Fit Grip™ make for happier bowlers—and more games.

### Smart Ball™ System

Our Smart Ball™ System includes everything you need to get rolling: an innovative fitting ball display ball and selection chart for fast size and weight identification, and color-coordinated balls (with seven different grip sizes and 11 different weights) for fast ball selection.

### Exclusive Benefits:

#### The World's Most Comfortable Grip

Our exclusive patented design offers 50% larger beveling than the competition. Reducing hand fatigue, it also makes for more accurate play—and more satisfied bowlers.

#### Guaranteed Performance

All Smart Balls are made of durable urethane, guaranteed for two years. And our whole house replacements are now guaranteed for three years! They also illuminate under black light—igniting play and stirring your bowlers to keep coming back.

#### Fastest Ball Selection

Our Smart Ball System speeds turnover by getting bowlers to their lanes seven minutes faster on average. That means more games during your peek times. And it could add up to thousands more in revenue per year! Plus, each ball has its weight engraved on two sides, making it a snap for bowlers to find the right one, fast!

## PUT YOUR BOWLERS IN OUR COMFORTABLE RENTAL SHOES AND WATCH THEM BOWL LONGER.

Battered bowling shoes can send bowlers packing, cause them to complain when they have to wait for the right size, and play less when their feet start hurting. But you may think you have to spend big bucks to get shoes that look great, fit great, and last long enough to make a smart investment. No longer! QubicaAMF offers a full range of dual-sized rental shoes offering superior comfort, quality, and value.

### PREMIUM RENTAL SHOE

Get premium style and durability without the premium price. Made of the finest materials available, these shoes offer full-grain leather uppers with cowhide soles. Together with a well cushioned foot bed and Italian design, they provide incredible comfort and style.

A built-in Sensormatic tag keeps them from “walking” out the door. Available in both men’s and women’s widths for better inventory control and flexibility. One year warranty.

### VELCRO RENTAL SHOES

Get your customers playing faster and spending more with these simple yet brilliantly designed shoes. They feature rugged 360 genuine Goodyear welt construction, plus a padded collar and padded foot bed.

Available in adult unisex, youth, and children sizes for reducing inventory costs and hassles. Men’s and women’s sizes are clearly marked on the back of each shoe for quick selection. Six-month warranty.

**AMFLITE II. THE STANDARD BY WHICH ALL PINS ARE JUDGED**

AMFlite II pins are the industry leader in quality, scoring and durability due to our unique manufacturing process.

Our lock-in nylon base, which set the industry standard, stays in place for the life of the pin and reduces pin sliding.

Made in the USA from the finest hard maple lumber from the northeast and stored in a special predryer before kiln drying in-house, for a more durable resilient core.

Compression Molded Surlyn provides the use of a stiffer resin. This allows a thinner, more uniform coating and a larger core size, which increases neck strength and results in better scoring and fewer neck fractures.

Customized triple-application topcoat process offers better performance in all machines and a longer life with improved appearance.

Small weight control holes provide pin consistency, resulting in consistently higher scores.

AMFlite warranty guarantees complete customer satisfaction.

**BIRTHDAY PINS**

Birthday bowling is one of the fastest growing promotions in the industry. Present the guest of honor with a special Birthday Pin from QubicaAMF, and turn today's young bowlers into tomorrow's customers. Our all new multi-color birthday pin is sure to excite. Or, choose our entry level birthday pin. Made from a refurbished core and recoated in Surlyn with a one-color logo, we have a pin to fit every price range.

**PINNACLE**

Engineered based upon the industry's best-selling pin, the AMFlite II, and then enhanced with a 50 percent increase in Surlyn thickness in the ball impact area to reduce core compression and extend pin life. The pin features a specially formulated lock-in, black base to reduce pin sliding and is manufactured from clear, straight grain, white maple. The AMFlite Pinnacle comes with a two-year or 10,000 game warranty.

USBC permits are available for each branch of the military. We apply at NO CHARGE!

**AMFLITE II PINS**

QUBICAAMF is recognized as the world's leading manufacturer of high scoring, incredibly durable and extremely attractive pins.

AMFLITE II PINS - Made in America from the finest hardwood maple and 100% kiln dried. These are the most durable, highest scoring pins on the market!
